RE: MTC TIP Revision No. 2019-48 – Amendment

James Anderson:

Please be advised that MTC recently made several changes to the 2019 Federal Transportation Improvement Program (TIP). TIP Revision No. 2019-48 revises two projects with no net change in the amount of funding programmed. This revision will update the descriptions of two of the City of San Jose's projects to include pavement preservation and update the funding plan of one of these projects.

The modifications made pursuant to this revision do not require a new regional emissions analysis because the projects were found to conform as a part of a previous analysis, pursuant to the transportation conformity provisions found in 40 CFR Part 93 section 122(g). MTC's 2019 TIP, as revised with TIP Revision No. 2019-48, remains in conformity with the applicable State Implementation Plan (SIP) for air quality and the revision does not interfere with the timely implementation of the Transportation Control Measures contained in the SIP.

The investments described in MTC's 2019 TIP, as revised with TIP Revision No. 2019-48, make progress toward achieving the performance targets set by the region in accordance with the applicable provisions and requirements of 23 CFR Part 450.

The revised TIP entries and the updated fiscal constraint documentation have been emailed to your staff and have been posted at MTC's TIP website at: <http://mtc.ca.gov/our-work/fund-invest/transportation-improvement-program>. If you have any questions regarding this revision, please contact Adam Crenshaw of my staff at (415) 778-6794 or Karl Anderson at (415) 778-6645.

Sincerely,

Andrew B. Fremier
Deputy Executive Director, Operations
