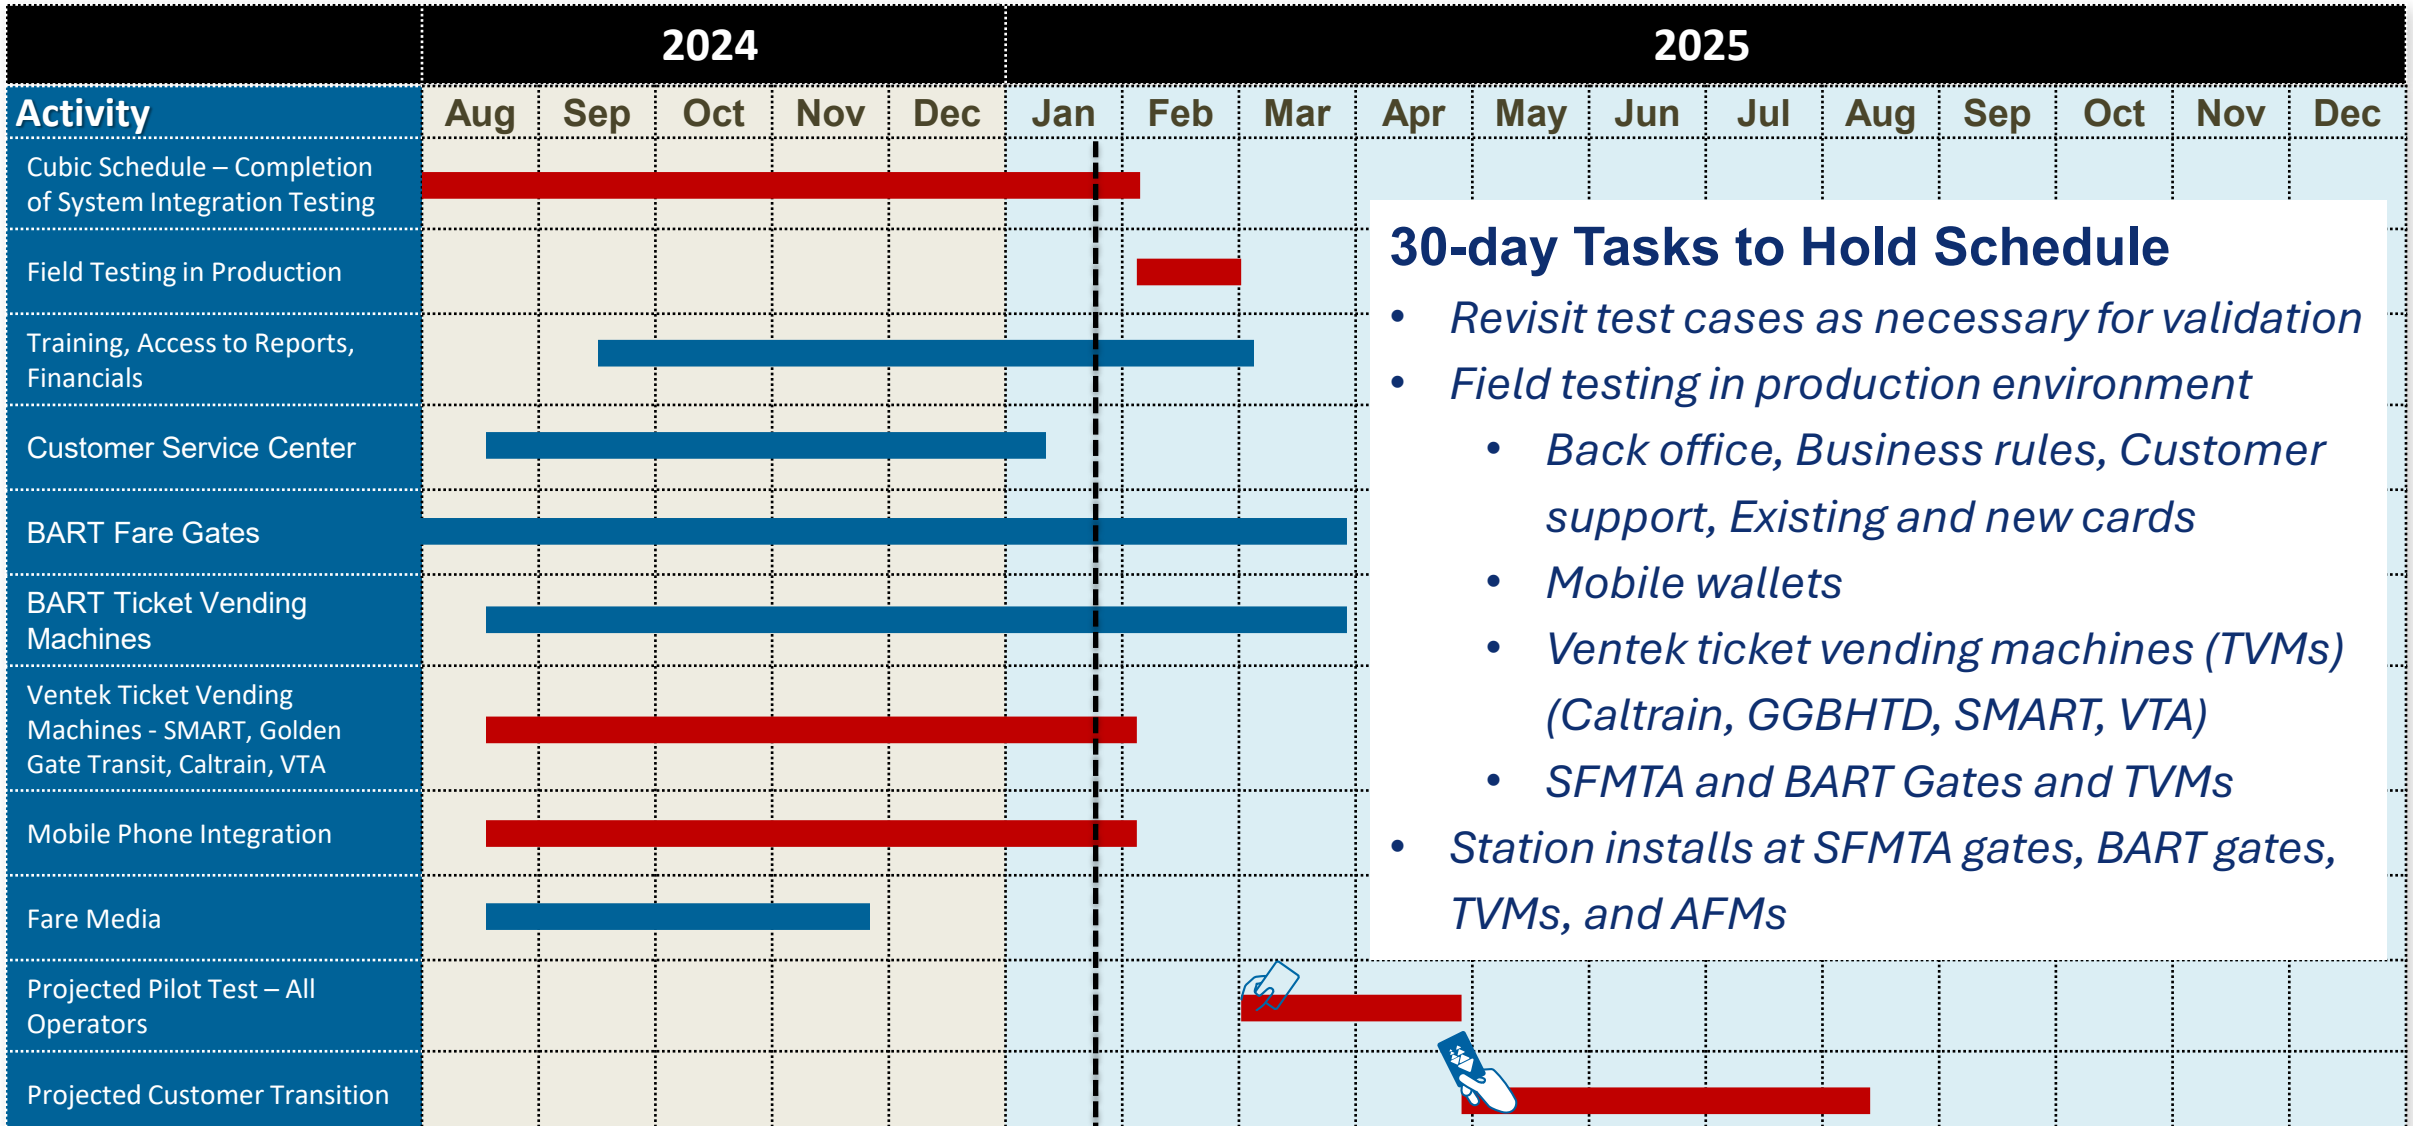
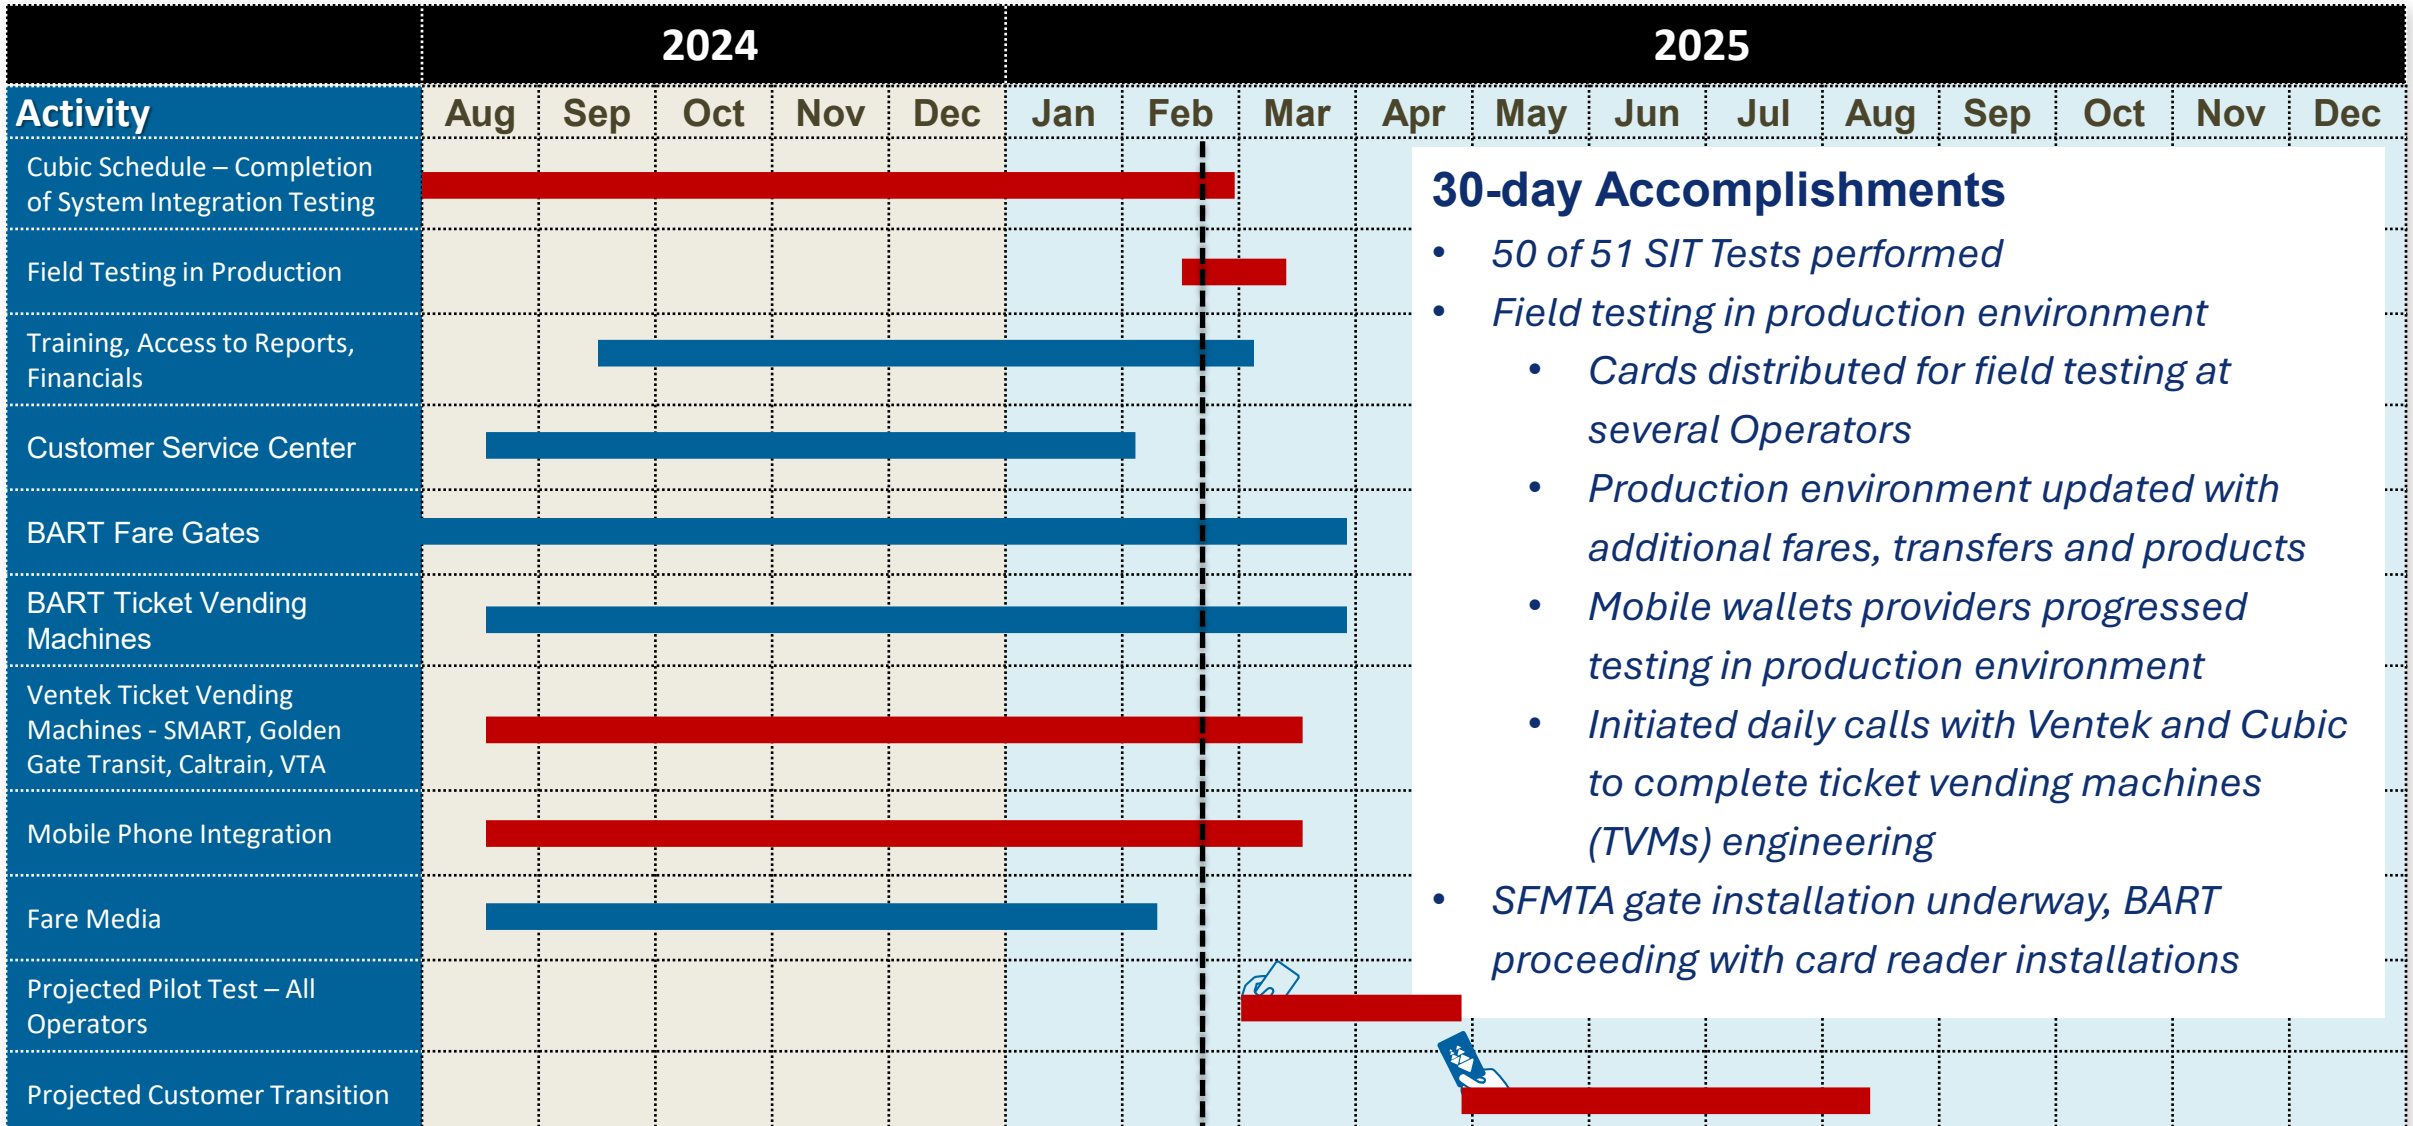
Next Generation Clipper Program Schedule

- **As reported at January CEB - Focus on next 30 days**



Next Generation Clipper Program Schedule

- **Accomplishments since January CEB**



Testing & Pilot Activities

- Witnessing completed for all items except SFMTA TVM, driven by use cases around the new C2 limited use tickets
- Additional production system updates planned for this week, which are anticipated to be the final major changes prior to pilot and launch
- 190 pilot cards with thousands of dollars in value provided to MTC to ramp up field testing and pilot user activity in the coming weeks
- Working with BART team daily to evaluate TVM performance and facilitate further installations of both TVM and the two faregates
- SFMTA Faregate TR4 installations underway through the next month
